

# Access Hawaii Committee Questionnaire

## Welcome

The Access Hawaii Committee is gathering information to determine how well the State is achieving the Governors Initiative of providing citizen services online by 2010.

We have information on internet accessible sites that the Information and Communication Services Division supports, as well as information on the internet accessible sites and services that the State Internet Portal Manager (HIC) supports. We need your help to fill in the gaps for websites and services accessible to our citizens that we currently do not have information on.
